

Microfiber Pads for C² Products

C² Super Hard™ & C² Hard™ Application 18" Pad

- Distributes C² Super Hard™ & C² Hard™ evenly with no streaking.
- Machine washable. After application, just rinse out and put the pad in a bucket of water until you can wash it. Comes back like new.
- Standard looped pile microfiber weave lets the pad glide across the floor quickly, smoothly and easily. There are no snags or hang-ups as with standard terry cloth or sponge applicators, or cotton mops.
- Won't absorb material or leave fabric fibers on floors.
- Also comes in a 36" size for larger application areas.

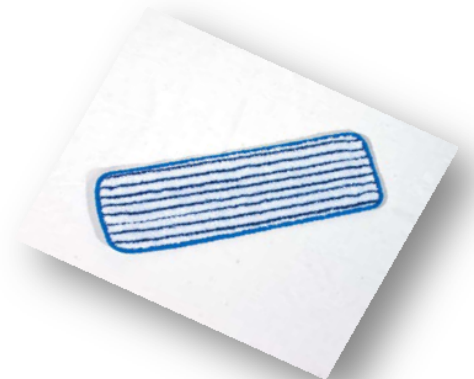

C² Tint™ & C² Color Hard™ Application 18" Pad

- Distributes colors evenly with no streaking.
- Machine washable. After application, just rinse out and put the pad in a bucket of water until you can wash it. Comes back like new.
- Standard looped pile microfiber weave lets the pad glide across the floor quickly, smoothly and easily. There are no snags or hang-ups as with standard terry cloth or sponge applicators, or cotton mops.
- Won't absorb material or leave fabric fibers on floors.

C² Seal™ Application 18" Pad

- Specifically made for spreading material ultra-thin
- Machine washable. After application, just rinse out and put the pad in a bucket of water until you can wash it. Comes back like new.
- Standard looped pile microfiber weave lets the pad glide across the floor quickly, smoothly and easily. There are no snags or hang-ups as with standard terry cloth or sponge applicators, or cotton mops.
- Won't absorb material or leave fabric fibers on floors.

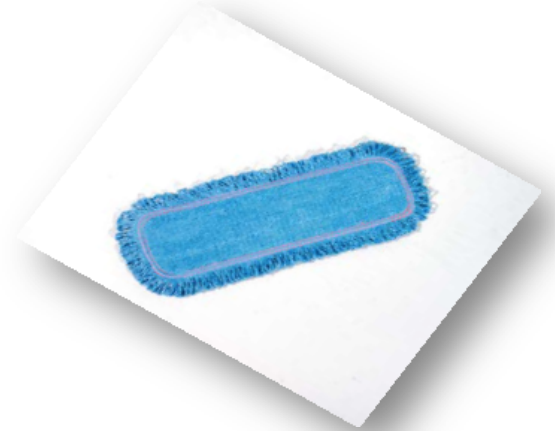

C² Maintenance™ Application 18" Pad

- Made for cleaning floors before and after C² Seal™ application
- 80 percent microfiber yarn blend picks up fine soiling. 20 percent looped-pile polypropylene scrubbing strips provide aggressive abrasive action.
- Scrub strips break it up; microfiber picks it up.
- Industrial quality; withstands hundreds of washings.

C² 18" Dry Dusting Pad

- Microfiber yarn blend attracts and picks up dust
- Microfiber yarn fringe adds enhanced dust attraction and containment.
- No chemicals needed; captures contaminants via static attraction.
- Industrial quality; withstands hundreds of washings.

C² 50" Aluminum Handle & 18" Applicator Head Set

- Fast, easy turn and lock extension system.
- Applicator Head built with riveted velcro for easy use and durability
